

INSTRUCTIONS

STEP 1

- Layer two pieces of fabric together. The right sides (the nicer sides of the print fabric) should be facing each other.
- Sew the top and bottom edges of the mask (the longer sides), leaving 1/4" along the edge for the seam.

STEP 2

- Turn inside-out so that the seams are now on the inside and the nicer side of the print fabric is on the outside.
- Fold and tuck in the sides 3/8".

STEP 3

- Insert the ends of the elastic into the side corners, as shown. Adjust length as needed.
- Stitch down both sides of the mask. Make sure to secure the elastic.

STEP 4

- Fold the mask in half lengthwise.
- Tack at 1" on both sides, as shown.

STEP 5

- Unfold mask.
- Form pleats, as shown.
- Stitch down both edges.

Congratulations, your mask is complete! 🙌
